### 3D Noughts and Crosses

With a partner, take turns to write an **O** or **X** in any empty cell. The winner is the first player to make a straight row of three **O**s or **X**s vertically, horizontally or diagonally, on one level or on all three levels.

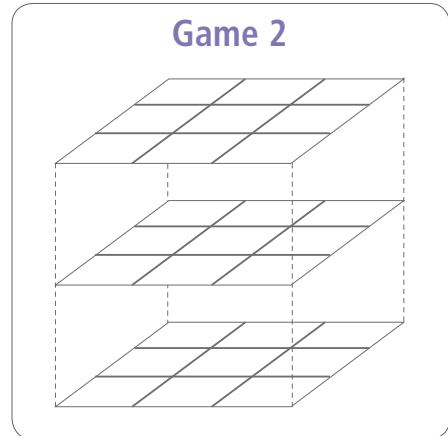

Examples of possible wins:

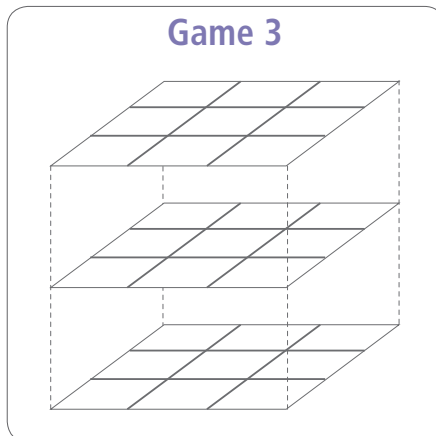

Game 1

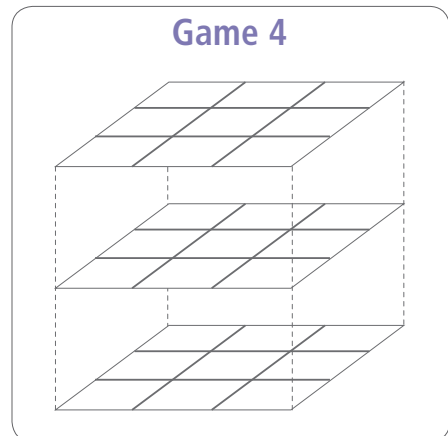

Game 2

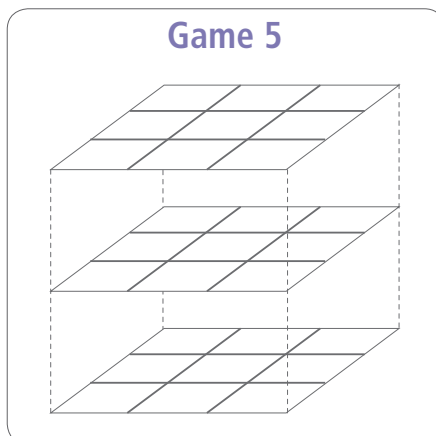

Game 3

Game 4

Game 5

Game 6
